This Week at Nursery Traders

Christmas Orders

Let us at Nursery Traders take the stress out of your Christmas ordering this year. We made mention last time of our Christmas Star Piceas. Well in the weeks leading up to Christmas we will have many and varied items suitable for table decorations or presents. From the traditional Christmas trees and Poinsettias to Orchids, mixed indoor gardens and ceramic potted indoor plants, we will have something for most tastes. Below is just a sample of some of what we can supply.

Scented Sensations

If you're looking for that scented feature have we got some choice for you.

Looking especially good at the moment are our Star Jasmines all in full flower and looking and smelling magnificent. Available in 140mm, 200mm and 250mm, we have plenty of stock for your climbing requirements.

Also coming into bloom right now are our Gardenia 'Floridas'. These 1m x 1m flowering shrubs are just full of buds and are set to burst, filling the air with their exquisite perfume. We have plenty in stock right now from 140mm pots right through to 300mm.

If you're looking for something reminiscent of the gardenia but without the heady scent then the Crape Jasmine (*Tabernaemontana divaricata syn Ervatamia coronaria*) might be the plant for you. Growing to about 1.5m tall, give you the appearance of a gardenia in full bloom but with only a hint of a sweet aroma. These are currently available in 200mm pots and as they can be hard to find in production I would say they will not hang around for long.

Say G'Day to your New Office Mates

A new arrival at Nursery Traders has been the Office Mates range of desk friendly indoor plants.

Office Mates have been specifically created to provide you with a range of high-performing, low-care plants that will have a great impact in your home or office environment at a very reasonable price.

We suspect that once your customers have one office mate and they experience first-hand how great they are to have around and how easy they are to care for, they will be coming back to buy another one to keep them company.

Currently available in the Office Mates range are:-

- Chamaedorea elegans (Parlour Palm)
- Rhaps excelsa (Lady Palm)
- Dieffenbachia Red Camille
- Dieffenbachia Perfection
- Syngonium Roxanne
- Syngonium Wanda
- Succulents (Haworthias and/or Aloes)

Coming into the market over the next couple of months are:-

- Tillandsias (Air Plants)
- Magic Beans
- Zanzibar Gem
- Philodendron Atom
- Calathea Mackoyana
- Vrieseas
- Syngonium Apple Red
- Pedilanthus 'Green Feather'
- Calathea Medallion
